Vacancy announcement

PUMA Field Operator (Pumpman)

Our client, a multinational company, specialized in oil and gas, is looking for a “PUMA Field Operator (Pumpman)” to accompany his activities in Cameroon

Job Purpose/Summary

The PUMA Field Operator (Pumpman) has an operational role with the integral responsibility to ensure that the HT-400 machinery, pumping equipment and other resources are effectively operated to optimize the profitability of the company's site operation.

Key Accountabilities/Result Area

- Ensure the good functioning of the pumping unit during Work-over activities, following QHSE policies and procedures.
- Exercise discretion with the level of skill required to operate a pumping unit.
- Perform or assist with preventative maintenance when required.
- Plan and organize the maintenance schedule of Pumping Unit and accessories.
- Ensure that necessary spare parts are available on site to properly operate the Pumping Unit with no standby.
- List purchase orders of spare parts for the Pumping Unit and Pumping Equipment.
- Inform the Company Supervisor of any problem occurring on the well or on the control of the well.
- Barricade and/or have work area bonded and erect signage as required to make work area safe.
- Ensure that all equipment's and associated products are used to their maximum potential, while ensuring their sustainability.
- Reduce downtime and optimize machinery utilization while ensuring that all machines, and equipment are clean.
- Ensure that the highest level of quality is consistently maintained through all work conducted.
- Take personal responsibility and be fully accountable for the achievement of all objectives as outlined.

HSSE
